TONY CAMILLERI  
5.1A

# DESIGN

SOME OF MY DESIGN DECISIONS WERE HEAVILY INFLUENCED BY BOYNITHUKES COLOUR THEME GENRE, AND STYLE

FOR EXAMPLE GOING WITH THE OUTLINED BUTTONS FELT LIKE A MUST AS IT GIVES THIS MODERN STYLE AS IT ALSO KIND OF REFLECTS THE EYES OF HIS MASK

[About](#)[Music](#)[Products](#)[Contact](#)

I ALSO LATER DECIDED TO GO FOR A MORE BASIC BACKGROUND USING ONE COLOUR SINCE I FELT LIKE IT WAS A BIT TOO MUCH AND MADE THE WEBSITE LOOK MORE CLEAN, I STILL FOLLOWED THE STYLE GUIDE AND USED THE GRADIENTS FOR THE OTHER BUTTONS

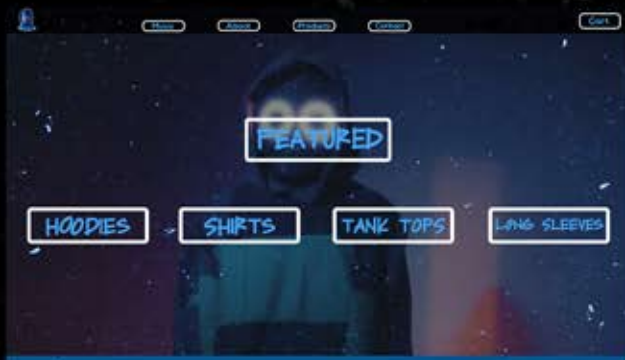

[FEATURED](#)[HOODIES](#)[SHIRTS](#)[TANK TOPS](#)[LONG SLEEVES](#)

# EVALUATION

WITH MY CURRENT WEBSITE I AM QUITE HAPPY WITH IT BUT I DEFINETLEY FEEL LIKE IT COULD BE BETTER AS SOME PARTS WERENT PERFECTED AS IT WAS SUPPOSED TO

FOR EXAMPLE ONE THING THAT REALLY BUGGED ME WAS THE MENU WHICH I WISHED I WOULD OF MADE IT MOVE WITH THE PAGE WHEN YOU SCROLL DOWN AND MAKE THE PART WITH THE LINKS AND CART STAY ON THE RIGHT SIDE (LEAVING A BLANK AREA IN THE MIDDLE) SO IT COULD LOOK NICER

ALSO THE BUTTONS OF THE PRODUCTS AND MUSIC PAGES DIDNT COME OUT AS I WANTED, IN THE WIREFRAMES BASICALLY DESCRIBE WHAT I WANTED BUT I DIDNT MANAGE TO FIND OUT HOW TO MAKE IT LOOK THAT WAY WHICH I WISH I COULD OF IMPROVED ON

# EVALUATION

SOME PROBLEMS THAT I HAVE NOTICED WAS WITH THE CONTACT PAGE MY MENU CHANGES A BIT SINCE I USED A DIFFERENT CSS BUT USED THE SAME CODE, I SHOULD OF MANAGED MY WAY AND CREATED CLASSES FOR THE STUFF I NEEDED RATHER THAN CREATED A SEPERATE CSS SHEET

SOME DESIGN IMPROVEMENTS I WISH I ADDED WAS ADDING MORE FEATURES LIKE LITTLE SCRIBBLES OR UKULELES TO MORE MATCH THE ARTISTS VIBE AND THEME WHILE STILL KEEPING IT CLEAN

FOR MORE IMPROVEMENTS I WISH I COULD OF ADDED MORE INTERACTIVITY AND MAYBE SOME MORE WEB ACCESSIBILITY OPTIONS

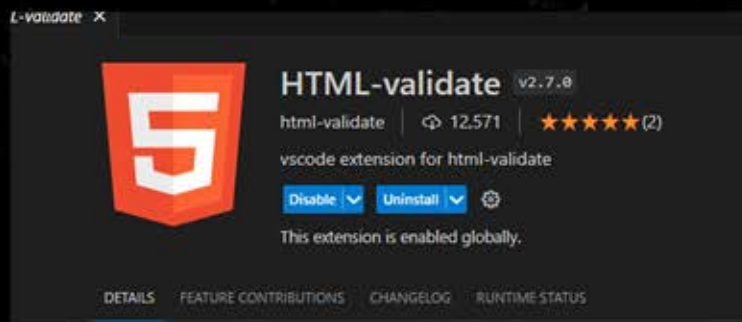

# TEST CASE LIST

A	B	C	D	E	F	G
Test Case	Test Case Description	Page	Pass/Fail	Status	Comments	Fixed?
1	Hover Click takes you to Cart Page	Product Page	Fail	Not Working	Fixed problem with hover being inside .container and link not working properly	Yes
2	Validation script works on Message Box	Contact Page	Fail	Not Working	Not sure what ID textarea uses so I couldn't figure out how to fix it	No
3	Menu Button takes you to page on click	N/A	Pass	Working	N/A	N/A
4	Script for Carousel Auto Slide	Home/About Page	Pass	Working	N/A	N/A
5	Button Anchor Links takes you to anchored item	Product & Music Page	Fail	Not Working	I had forgot to add the ID on the item on my first test	Yes

THIS IS MY TEST CASE LIST WHERE I FOUND PROBLEMS AND LATER FIXED THEM

# TESTING

FOR TESTING I USED THE HTML VALIDATED PLUG-IN TO HELP ME WHILE I WAS INPUTTING THE CODE

I TESTED BY CHECKING THAT EVERYTHING WAS VALIDATED AND THAT THE SITE WORKED PROPERLY AS SUPPOSED TO AND CHECKING THAT THERE ARE NO RED SQUIGGLY LINES.
